

MB14T SKIPLoader

Benefits

Ultimate long-term profitability throughout equipment lifetime with a fast operating and lightweight product

Reduced downtime for servicing with the Edbro long-standing "fit & forget" reputation

Optimum safety for equipment operator with a range of protection features

Minimal servicing worries with support from an extensive network of specialist spares and service agents

Features

Independent & sequence arm control for increased flexibility in operation

Compact, robust rear end design with protection for rear light clusters to increase durability in the most arduous waste handling operations

Side and front adjustable bin stops for increased versatility in container capacity

Independent jack legs for increased stability on uneven ground (pivoted flat foot or roller option available)

Fast lift-off facility for increased productivity

Dead-man control for extra driver safety in operation
